I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I (and countless others) pay for these services and it should not be up to the National Association of Broadcasters to dictate what people are permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that the public demands and deserves.
